COURSE DESCRIPTION

This course offers a review of important and timely topics in the field of perinatal medicine. Based on a review of the literature, input from our own expert faculty, and analyses from past conferences, we are proud to offer a comprehensive program with topics that include: evidence-based guidelines and standardized safety principles for managing hepatitis and other infections in pregnancy; updates in the use of cell-free fetal DNA testing; management of fetal growth restriction; effective management of diabetes. In addition, evidence is examined to set a practical, clinical approach to diagnosis and treatment of venous thromboembolism in pregnancy and management of glycemic control in labor. Valuable insights will be provided into various hypertensive conditions in pregnancy and postpartum. Lectures by faculty from the Keck School of Medicine of USC and distinguished guest faculty from Johns Hopkins University and Ascension Health will outline controversies, discuss recent developments, and suggest recommendations. Participants have direct access to the speakers and ample opportunity for intensive question and answer post-lecture discussions.

TARGET AUDIENCE

The program was developed for gynecologists, obstetricians, perinatologists, neonatologists, nurses, nurse midwives and other allied health professionals. It is USC's mission for this educational opportunity to provide participants with objective, evidence-based clinical content, to incorporate into their practices, improve clinical care, and further the well-being of their patients.

COURSE OBJECTIVES

By the end of the course, participants will be able to:

- Assess current literature regarding the management of hypertensive disorders of pregnancy.
- Formulate a practical plan to manage trauma in pregnancy.
- Describe and incorporate a treatment plan for obesity.
- Apply practical tips to thoroughly assess and manage diabetes.
- Describe a practical approach to work-up of thromboembolism in pregnancy.
- Assess the controversies surrounding physician and provider burnout.
- Construct a practical algorithm for the management of hepatitis and syphilis in pregnancy.
- Describe strategies to recognize and treat infectious diseases in pregnancy.
- Explore the work-up and management of trauma in pregnancy.

ACCREDITATION STATEMENT

The Keck School of Medicine of the University of Southern California is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

CREDIT DESIGNATION

The Keck School of Medicine of the University of Southern California designates this live activity for a maximum of 19 *AMA PRA Category 1 Credits™*. Physicians should claim only the credits commensurate with the extent of their participation in the activity.

The following may apply *AMA PRA Category 1 Credit(s)™* for license renewal: Registered Nurses may report up to 19 credit hour(s) toward the CME requirements for license renewal by their state Board of Registered Nurses (BRN). CME may be noted on the license renewal application in lieu of a BRN provider number.

Physician Assistants: The National Commission on Certification of Physician Assistants states that *AMA PRA Category 1 Credit(s)™* accredited courses are acceptable CME requirements for recertification.

This event is an Accredited Group Learning Activity (Section 1) as defined by the Maintenance of Certification program of the Royal College of Physicians and Surgeons of Canada and approved by the Keck School of Medicine of USC. You may claim a maximum of 19 hours.
