

Transmitting CME Credit Completions

Starting July 1, 2023, USC CME will begin transmitting learner completion credits for all U.S. physicians to the Accreditation Council for Continuing Medical Education (ACCME). CME credit data that is submitted can be viewed, managed, and tracked by US physicians in [CME Passport](#), a free, centralized web application.

For more information, visit

<https://www.accme.org/about-cmepassport>

IMPORTANT: If you do NOT wish for your credits to be transmitted to CME Passport, you must OPT OUT within your CME portal account profile. To opt out, go to <https://keckusc.cloud-cme.com> > click Sign In > click My CME > click Profile. Scroll to the bottom of the screen and UNCHECK the box for “I provide permission for my CME/MOC completion data to be shared and transmitted...”.

ATTENTION AMERICAN BOARD OF SURGERY DIPLOMATS:

As of July 1, 2023, the American Board of Surgery (ABS) will retire the manual reporting feature (the ability to individually input CME information into the ABS portal). Starting July 1, CME providers will be required to transmit all ABS related CME credits to the ACCME within 30 days of successful completion of a CME activity. You must be opted in through the CME portal for your credit to be transmitted to PARS/ABS. For more information, visit https://www.absurgery.org/default.jsp?news_abscme0223
